Training, Services and Activities

Information in this pamphlet can also be  
obtained on the Fort Bragg Public Safety  
Business Center Web site at

The mission of the Public Safety Business Center is to protect, defend and serve. And the safety of soldiers, civilians, and their families is one of our top priorities.

We would much rather prevent incidents from happening then to respond to an accident or crime when it is too late-- especially if it could have been avoided.

This booklet provides information on services offered by our key safety and emergency service providers on Fort Bragg to help you prevent harmful incidents from occurring. I encourage you to take advantage of these services. They are both fun and informative.

As leaders, we are responsible for providing our soldiers and community members with the tools necessary to keep them prepared. Let us help you provide those tools.

Together we can work to make our community a safer place for the people who make Fort Bragg and the U.S. Army the powerful force it is.

DAVID E. QUANTOCK  
Colonel, Military Police  
Director, Public Safety Business Center
